

# Guitar Lessons

Learn how to be part of a band!

## About The Program/Instructor

With 30+ years of musical teaching experience (both privately and at a local public school after-school setting), along with his background playing in two local popular bands, Mike is equal parts rocker and educator, ready to help your child learn one of the most classical instruments in music. Through instruction on the guitar, students will be exposed to the fundamentals of life-long music playing- chords, picking styles, scales, strumming patterns and performance techniques.

- Grades 3-8
- Students need their own guitar

- Contact Mike if you need info on purchasing/renting a guitar
