Game On!

In this class, we will dive into board game design. Our mission is to create a board game that teaches players about the wonders of ocean life. We'll design the game board, cards, and pieces, and then challenge each other to play!

Mars Habitat

Our mission is to design a habitat for a Martian colony. We will explore architectural design to imagine a practical home for people living on Mars. Then, we'll sculpt our designs to create our own 3-D models.

Comic Book Heroes

We're dressing up our very own superhero! Superheroes look their best when drawn in action poses, with faces that tell their story. We have superhero templates and fashion textiles to kick-start the ultimate comic book star!

Wild Animation

Let's travel into the woods! We'll design a storyboard to spread the word about protecting this cool ecosystem! We'll also make a flipbook to see how film animators connect images to create moving pictures.

Picture Perfect

Hooray for Hollywood! We have been challenged to create a poster to promote a movie. We will learn the elements of graphic design to create exciting, eye-catching posters.

Universal Treehouse

We're making the rainforest our home for a year! We'll be designing a treehouse where three scientists will live and work. The mission involves making our treehouse animal-proof and wheelchair accessible.

Futureville

We're designing a city of the future! How will we handle the traffic flow of all those who work and live in the city? Our mission is to create a pop-up vision of a future metropolis whose citizens get around safely on foot, on wheels, and in flight!

Pitch Your Product

Anyone, at any age, can be a business entrepreneur! We're learning how to turn an idea into a retail product. Let's design and build a prototype of the perfect tool that everybody needs.
