TIME
3:30pm – 4:30pm

COST (inc. liscence)
$260

LEVEL UP LIFE SKILLS THROUGH GAMING!

In Nexplore Esports, every student is an expert player. Empowered by Mastery Coding, this program uses popular games to introduce students to essential life skills like collaboration, time management, and healthy competition. An expert instructor combines standard-aligned curriculum and expertise to guide students as they play their favorite games, creating a safe environment where students learn appropriate online etiquette, digital citizenship, and online safety. Beyond the games themselves, Nexplore Esports breaks down how and why games work to inspire gamers towards future careers in technology.
